**HAMIRPUR (H.P.) - 177 005 (INDIA)**

(An Institute of National Importance under Ministry of HRD)

**{OFFICE OF TRAINING & PLACEMENT}**

**Subject: Campus Recruitment for B.Tech/B.Arch./Dual Degree/M.Tech/M.Arch./MBA Students**

Dear Sir/Madam,

Greetings from the National Institute of Technology Hamirpur (Himachal Pradesh).

We would like to draw your kind attention towards the placement perspectives at National Institute of Technology Hamirpur. Our institution has been a favoured destination for organizations looking for bright engineers for recruitments.

First of all, I take this proud opportunity to introduce you with our institute. NIT Hamirpur commenced its journey as Regional Engg. College in the year 1986, was rechristened as NIT and Deemed University in 2002 and declared as Institution of National Importance by an act of parliament in 2007. The institute is located in the footsteps of Shivalik Ranges and provides a panoramic beauty of snow-covered Dhauladhar Ranges. Over a period of time, the institute has made its place amongst the leading technical institutions of the country. The institute is presently running accredited (by National Board of Accreditation) undergraduate programmes in six branches of Engg. viz. Civil, Electrical, Mechanical, Electronics & Communication, Computer Science & Engg, Chemical Engineering, B. Arch. and Dual Degree (05 years course B.Tech. + M.Tech.). Besides this, institute offers M.Tech./M.Arch./MBA and Ph.D. programmes in various specializations of these engineering branches. The programmes at NIT Hamirpur are a right blend of academic and professional learning. The students go through rigorous academic work, complemented by intensive project work and industrial exposure keeping in view the needs of the Industry. Excellent infrastructure, congenial teaching learning ambience, committed faculty, significant contribution to research work and commitment to the community are our hallmark.

Therefore, this endeavor of mine is to enlist your kind cooperation in finding suitable placement for our graduating students. Needless to say, process of campus interview is the best way to recruit the quality manpower in any progressive organization. It is widely accepted and appreciated that campus interviews of graduating students have advantages both for the institution as well as for the industry. Every year, we look forward for placement of about 500 students in the above mentioned degree programmes. Many public sector units, national and multinational companies visit us regularly for recruitment drives. Most of our alumni are placed in several multinational and international organizations and are performing excellently well in respective organizations.

Thus, we take immense pleasure in extending an invitation to your reputed organization to send a team of experts to this institute for bestowing and entrusting your precious knowledge of your organization to engender desirable placement opportunities on the surface. Your presence and association will give a substantial and earnest proclivity to achieve respective placement goals of the institute. On behalf of National Institute of Technology Hamirpur, I am very pleased to have the honor of extending all needful facilities during your valuable stay in the campus.

I, also request you to kindly consider the particulars of the students of IIIT, Una. Those students are residing in the Campus of NIT Hamirpur and getting nurtured by the faculty of NIT Hamirpur (HP), as the concerned institute has no building, infrastructure and faculty. Therefore, we take this responsibility to place them.

In light of the above facts, you are requested to consider the database of approx. 50 students of CSE & ECE branch of IIIT Una.

We are in the process of finalization of campus placement schedule for our students passing out in May, 2019. You are most welcome to visit our institute from August 2018 or on mutually convenient dates.

We are looking forward for your ardent presence at NIT Hamirpur.

Yours Sincerely,

Dr. Somesh Kumar Sharma
